Dream SMART 12 Week Programme

Introduction

How often have you had a dream/vision/goal in mind just for someone to tell you that it is not a SMART goal, and then getting dejected to eventually giving up, or failing after the first week because you did not reach your-self imposed targets?

We get so easily demotivated and distracted from our dream that we often forget the real reason we are working so hard in the first place.

The 12-week DREAM SMART programme is specifically designed to keep your dream intact, allowing you to re-adjust your actions based on your lifestyle.

Welcome to your 12-week programme.

How it works

Write down your dream/vision. Here it is important NOT to include many details, those come later.

Next, write down, up to three goals. These three goals should be the different elements required to achieve your dream. Here you can start using the SMART goal system, keeping in mind there are actions to follow that will be extremely specific in nature.

Here we are now at your weekly actions. Write up to three actions for each GOAL. These should be extremely specific, down to the number of times a week you want to do this action.

Lastly you will list your actions and make a not in your planner. Reflecting on your progress after each week and adjusting your actions in your planner for the following week based on your reflection.

12 Week Programme

Now that you have set out your programme, it is time to put it into action. Use the weekly timetable to schedule your actions.

How to Use Your Schedule

Decide how many times each week you want to complete your planned actions.

Each day, use the daily affirmation to remind yourself of what you intend to do. At the end of the week, take time to reflect on your progress. Ask yourself what went well and what could be improved.

If you didn't complete all your planned actions, consider why. Were there expected or unexpected obstacles? Only adjust your actions if the issue keeps happening. If your current lifestyle doesn't allow for your planned actions, adapt your expectations for the following week so they fit realistically into your routine.
